

**Past Presidents:**

Jan A. Bruijn MD, PhD, Leiden University, The Netherlands  
Lorraine C. Racusen, MD, Johns Hopkins School of Medicine  
J. Charles Jennette MD, University of N. Carolina  
Cynthia C. Nast MD, Cedars-Sinai Medical Center  
Agnes B. Fogo, MD, Vanderbilt University  
Melvin M. Schwartz MD, Rush Presbyterian-St.Luke's Med Ctr  
Charles F. Alpers MD, University of Washington  
Seymour Rosen MD, Beth Israel Deaconess Medical Center  
Robert B. Colvin MD, Massachusetts General Hospital  
Arthur H. Cohen MD, Cedars-Sinai Medical Center  
Vivette D'Agati MD, College of Physicians & Surgeons of Columbia U  
Fred G. Silva MD, US & Canadian Academy of Pathology  
Michael Kashgarian MD, Yale University School of Medicine  
Gloria R. Gallo MD, New York University Medical Center

Dr. Priscilla Kincaid-Smith  
PETERS AWARD - 1993

Congratulations Dr. Robert H. Heptinstall  
JOHN P. PETERS AWARD - 1993

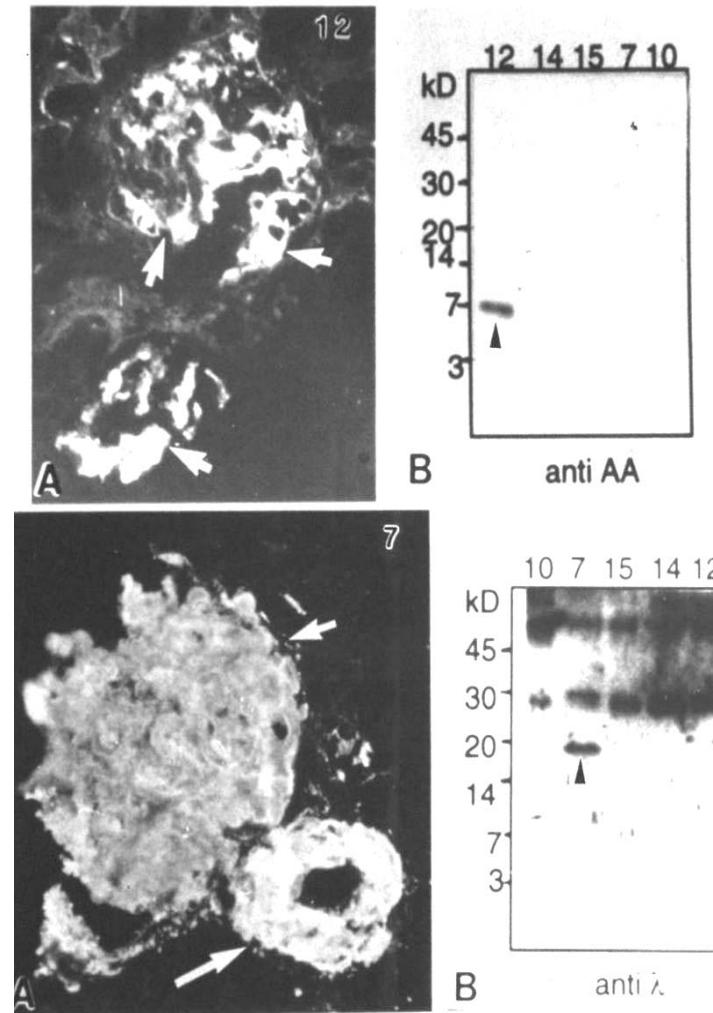

Gloria R. Gallo MD

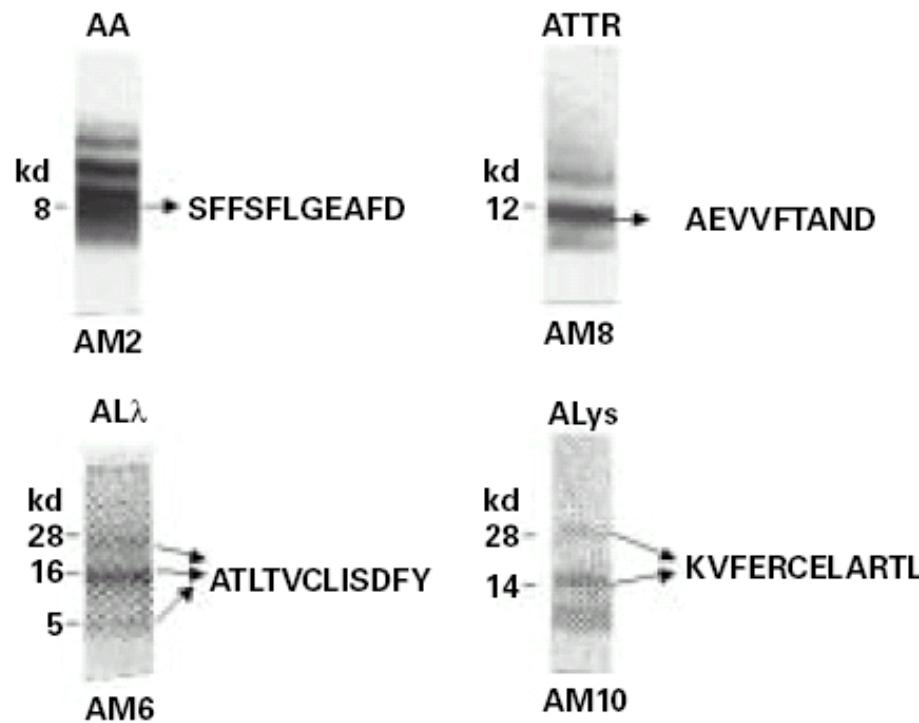

“Mad about  
Deposits”

*ISA*

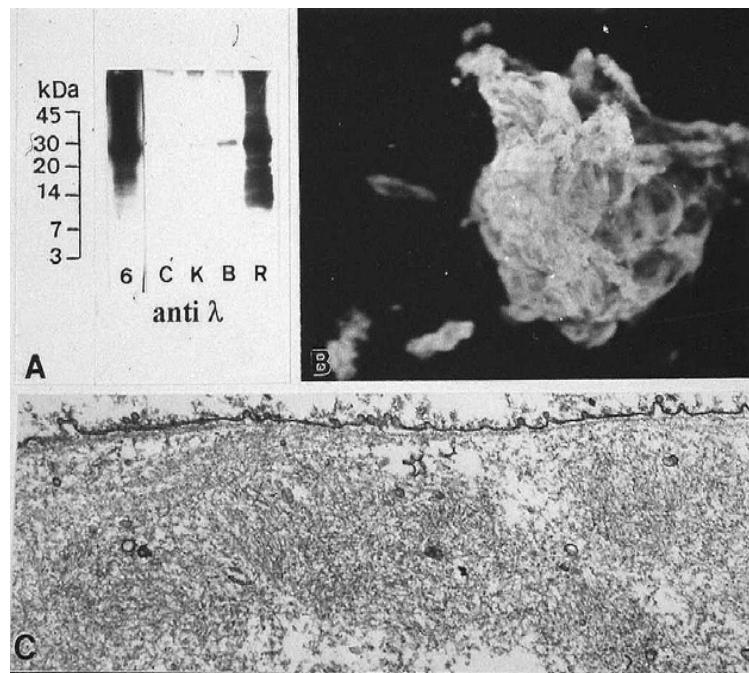

- Improved characterization of deposits
- Mechanism of deposit formation, LCDD vs AL
- Animal models

# Beyond Renal Pathology....

## FAT – beyond Congo red...

NYU experience:

- 16/86 (+) fat aspirates
- typing in 15/16 fat aspirates
- confirmed by molecular studies

# Renal Pathology Laboratories

- The *processing and interpretation of all amyloid-related specimens* is best relegated to the Renal Pathology Laboratory, where the polarization microscopy, immunofluorescence microscopy, electronmicroscopy methods and equipment for analysis are already in place
- The importance of experience and expertise

**Gloria R. Gallo MD**
