The meeting was chaired by Dr. Pirani.

The minutes of the November 1979 meeting had been previously distributed. The
following matters were discussed:

I. Membership

The Committee reaffirmed that all pathologist members of the American
Society of Nephrology (ASN) will be individually invited to attend the
annual scientific meeting of the Renal Pathology Club (RPC). This
meeting will be open, however, to any physician or other scientist
attending the ASN.

II. Annual Scientific Meeting

A. Relationship to ASN

The next scientific meeting of the ASN will be held from 2-5 PM
Sunday, November 23, 1980 in Washington D.C., preceding the annual
meeting of the ASN. Should the ASN decide to begin its scientific
program on Sunday afternoon, the meeting of the RPC will be moved
forward to 10 AM the same day.

Dr. R. Vernier, Pres. ASN, had suggested including notice of the
RPC meeting in the printed program of the ASN. The Organizing
Committee thought that their including our program in their program
would be acceptable on a trial basis for the current year, if the
ASN could provide without charge an adequate meeting room (300
persons) and audio-visual facilities. Drs. Pirani and Bernstein
were instructed to make the appropriate arrangements with Dr. Vernier.

B. Scientific Program

Two possible topics were considered: 1) renal glomerular endothelium
and 2) renal effects of dysproteinemia. The second was chosen by
general consensus. Drs. Pirani and Churg were asked to organize the
program and serve as cochairs. Dr. Liliane Morel-Maroger was
suggested for the role of leadoff speaker.

The meeting was adjourned at 11:15 AM
